## Skills

4 years of JavaScript, HTML, CSS, and Linux experience. 2 years with Node.js / Express, React, and Git / Github. I have also worked with PHP, MySQL, Apache Web Servers (LAMP Stack), NginX Web Servers, jQuery, Gulp, Browserify, Webpack, SASS, Less, Jade / Pug, EJS, and Django templating.

I created Official-Typing-Test.com, a site getting ~600,000 page views per month. I am not very proud of the visual design, but the JavaScript and jQuery running behind the scenes has been bulletproof. I also maintain a VPS running Ubuntu.

I have lead teams, worked directly with customers, and excelled at every company I have worked for. I was the youngest Geotechnical Driller at Eagle Drilling. I had the top overall scores at my Digital Technician training for Lamar Advertising. I am also a certified crane operator and a commercial driver.

See my recent work at <https://bdenzer.com>
